**Principles of Microeconomics | Table of Contents**

**Chapter 1: Introduction to Economics**

1.1 Understanding the Importance of Economics
- Evaluate the significance of scarcity
- Contrast microeconomics and macroeconomics
- Explain the relationship between production and division of labor

1.2 Using Theories and Models
- Interpret a circular flow diagram
- Explain the importance of economic theories and models

1.3 How Economies Can Be Organized
- Contrast traditional economies, command economies, and market economies
- Assess the importance and effects of globalization
- Understand the basic relationship between government, regulations, and markets

**Chapter 2: Choice in a World of Scarcity**

2.1 How Individuals Make Choices Based on Their Budget Constraint
- Define Sunk Costs
- Calculate and graph budget constraints
- Evaluate the law of diminishing marginal utility
- Explain opportunity costs

2.2 The Production Possibilities Frontier and Social Choices
- Explain comparative advantage
- Explain the law of diminishing returns
- Interpret production possibilities frontier graphs
- Contrast productive efficiency and allocative efficiency

**Chapter 3: Demand and Supply**

3.1 Demand in Markets for Goods and Services
- Interpret a demand curve
- Explain demand, quantity demanded, and the law of demand

3.2 Supply in Markets for Goods and Services
- Explain supply, quantity supplied, and the law of supply
- Interpret a supply curve

3.3 Equilibrium in Markets for Goods and Services
- Explain equilibrium, equilibrium price, and equilibrium quantity
- Define economic surpluses and shortages

3.4 Shifts in Demand for Goods and Services
- Identify the effects of income on the demand curve
- Identify factors that affect the demand curve
- Graph shifts in demand
- Define the Ceteris Paribus Assumption
3.5 Shifts in Supply for Goods and Services
- Identify the effects of production costs on the supply curve
- Graph shifts in supply
- Identify factors that affect the supply curve

3.6 Changes in Equilibrium Price and Quantity
- Graph equilibrium price and quantity
- Changes in equilibrium price and quantity

3.7 Price Ceilings and Price Floors
- Explain price floors
- Explain price ceilings

3.8 Demand, Supply, and Efficiency
- Contrast consumer surplus, producer surplus, and social surplus
- Explain why price floors and price ceilings can be inefficient
- Analyze demand and supply as a social adjustment mechanism

Chapter 4: Introduction to Labor and Financial Markets
4.1 Demand and Supply at Work in Labor Markets
- Analyze examples of equilibrium in the labor market
- Identify factors that shift labor supply
- Identify factors that shift labor demand
- Analyze price floors in the labor market

4.2 Demand and Supply in Financial Markets
- Explain equilibrium in the financial market
- Explain how interest rates can affect supply and demand
- Define intertemporal decision making

4.3 Effects of Price Controls in the Labor Market
- Apply demand and supply models to analyze prices and quantities
- Explain the effects of price controls on the equilibrium of prices and quantities
- Explain the role of price ceilings and usury laws in the U.S.

Chapter 5: Elasticity
5.1 Price Elasticity of Demand and Price Elasticity of Supply
- Calculate price elasticity of supply
- Define elasticity
- Calculate price elasticity of demand

5.2 Polar Cases of Elasticity and Constant Elasticity
- Explain infinite elasticity
- Explain zero elasticity
- Analyze constant unitary elasticity

5.3 Elasticity and Pricing
- Analyze changes in elasticity over time
- Analyze how price elasticities impact revenue
- Explain the relationship between production and consumer cost
- Explain the effects of elasticity on tax incidence
5.4 Elasticity in Areas Other than Price
- Calculate the income elasticity of demand
- Calculate the cross-price elasticity of demand
- Select and apply formulas to calculate elasticity
- Analyze elasticity in labor and financial capital markets

Chapter 6: Consumer Choices
6.1 Consumption Choices
- Understand the concept of total utility
- Explain marginal utility
- Derive an individual's demand curve
- Derive the market demand curve from the demand curves of individuals
- Explain the concept of maximizing utility
6.2 How Changes in Income and Prices Affect Consumption Choices
- Contrast the substitution effect and the income effect
- Interpret the indifference curve

Chapter 7: Cost and Industry Structure
7.1 Introduction to Cost and Industry Structure
- Define firm and outline the scope of production
- Explain and calculate explicit and implicit costs
7.2 The Structure of Costs in the Short Run
- Differentiate between fixed costs and variable costs
- Analyze short-run costs
- Understand average total cost, average variable cost, marginal cost
7.3 The Structure of Costs in the Long Run
- Define production technologies
- Explain economies of scale, diseconomies of scale, and constant returns to scale
- Describe implications of the long-run average cost curve on the size and number of firms in an industry

Chapter 8: Perfect Competition
8.1 Introduction to Perfect Competition
- Explain the characteristics of a perfectly competitive market
- Describe how perfectly competitive firms react in the short run
8.2 How Perfectly Competitive Firms Make Output Decisions
- Identify profits and losses with the average cost curve
- Calculate marginal revenue and interpret a marginal revenue curve
- Calculate profits by comparing total revenue and total cost
- Explain shutdown point
8.3 Perfectly Competitive Markets in the Long Run
- Explain why firms enter and exit the market
- Discuss the long-run adjustment process
- Apply concepts of efficiency to perfectly competitive markets
Chapter 9: Monopolies
9.1 How Monopolies Form: Barriers to Entry
- Explain the characteristics of a monopoly
- Analyze how monopoly promotes innovation
- Analyze demand in a monopoly
9.2 The Inefficiency of Monopoly
- Determine total cost and total revenue for a monopolist
- Calculate marginal revenue and marginal cost for a monopoly
- Explain efficiency in a monopoly

Chapter 10: Monopolistic Competition and Oligopoly
10.1 Monopolistic Competition
- Define monopolistic competition
- Analyze the demand curve for a monopolistic competitor
- Analyze profit-maximization in monopolistic competition
- Discuss entry, exit, and efficiency in monopolistic competition
10.2 Differentiated Products
- Explain the consequences of variety and product differentiation
- Discuss the possible effects of advertising on competition, price, and output
10.3 Oligopoly and Theories of Oligopoly Behavior
- Explain the main characteristics of oligopoly
- Explain the collusion model of oligopoly
- Discuss how game theory can be used to understand the behavior of firms in an oligopoly

Chapter 11: Monopoly and Antitrust Policy
11.1 Corporate Mergers
- Explain antitrust law
- Calculate concentration ratios
- Calculate the Herfindahl Herschman Index
- Evaluate methods of antitrust regulation
11.2 Regulating Anticompetitive Behavior
- Analyze restrictive practices
- Explain tying sales, bundling, and predatory pricing
- Evaluate a real-world situation of possible anticompetitive and restrictive practices
11.3 Regulating Natural Monopolies
- Evaluate the appropriate competition policy for a natural monopoly
- Interpret a graph of regulatory choices
- Contrast cost plus and price cap regulation
11.4 The Great Deregulation Experiment
- Evaluate the effectiveness of price regulation and antitrust policy
- Explain regulatory capture and its significance
Chapter 12: Environmental Protection and Negative Externalities

12.1 The Economics of Pollution
- Define externalities
- Discuss examples of positive externalities
- Discuss examples of negative externalities
- Evaluate how firms can contribute to market failure

12.2 Command-and-Control Regulation
- Explain command and control regulation
- Evaluate the effectiveness of command and control regulation

12.3 Market-Oriented Environmental Tools
- Show how pollution charges impact firm decisions
- Suggest other laws and regulations that could fall under pollution charges
- Explain the significance of marketable permits and property rights
- Evaluate which policies are most appropriate for various situations

12.4 The Benefits and Costs of U.S. Environmental Laws
- Evaluate the benefits and costs of environmental protection
- Explain the effects of ecotourism
- Apply marginal analysis to illustrate the marginal costs and marginal benefits of reducing pollution

12.5 International Environmental Issues
- Explain biodiversity
- Analyze the partnership of high income and low income countries in efforts to address international externalities

12.6 The Tradeoff Between Economic Output and Environment Protection
- Apply the production possibility frontier to evaluate the tradeoff between economic output and the environment
- Interpret a graphic representation of the tradeoff between economic output and environmental protection

Chapter 13: Positive Externalities and Public Goods

13.1 Public Goods
- Identify a public good
- Explain the free rider problem
- Identify several sources of public goods

13.2 Why the Private Sector Under Invests in Innovation
- Identify the positive externalities of new technology
- Explain the difference between private benefits and social benefits and give examples of each
- Calculate and analyze rates of return

13.3 How Governments Can Encourage Innovation
- Explain the effects of intellectual property rights on social and private rates of return
- Identify three U.S. Government policies and explain how they encourage innovation
Chapter 14: Poverty and Economic Inequality
14.1 Earnings and Discrimination
- Explain economic inequality and how the poverty line is determined
- Identify potential issues in government programs that seek to reduce poverty
- Explain a Lorenz curve
14.2 The Safety Net
- Identify the anti-poverty government programs that compose the safety net
- Explain the primary goals of the safety net programs and how these programs have changed over time
- Discuss the complexities of these safety net programs and why they can be controversial
14.3 Measurement and Causes of Income Inequality
- Explain the distribution of income and analyze the sources of income inequality in a market economy
- Measure income distribution in quintiles
- Show income inequality through demand and supply diagrams
14.4 Government Policies to Reduce Income Inequality
- Explain the arguments for and against government intervention in a market economy
- Identify beneficial ways to reduce the economic inequality in a society
- Show the tradeoff between incentives and income equality

Chapter 15: Issues in Labor Markets
15.1 Unions
- Evaluate arguments for and against labor unions
- Analyze reasons for the decline in U.S. union membership
15.2 Employment Discrimination
- Analyze earnings gaps based on race and gender
- Explain the impact of discrimination in a competitive market
- Explain the arguments for and against government intervention in a market economy
- Identify U.S. public policies designed to reduce discrimination
15.3 Immigration
- Analyze historical patterns of immigration
- Explain economic effects of immigration
- Evaluate notable proposals for immigration reform

Chapter 16: Information, Risk, and Insurance
16.1 The Problem of Imperfect Information and Asymmetric Information
- Analyze the impact of both imperfect information and asymmetric information
- Evaluate the role of advertisements in creating imperfect information
- Identify ways to reduce the risk of imperfect information
- Explain how imperfect information can affect price, quantity, and quality
16.2 Insurance and Imperfect Information
- Explain how insurance works
- Identify and evaluate various forms of government and social insurance
- Discuss the problems caused by moral hazard and adverse selection
• Analyze the impact of government regulation of insurance

Chapter 17: Financial Markets
17.1 How Businesses Raise Financial Capital
   • Describe financial capital and how it relates to profits
   • Discuss the purpose and process of borrowing, bonds, and corporate stock
   • Explain how firms choose between sources of financial capital
17.2 How Households Supply Financial Capital
   • Show the relationship between savers, banks, and borrowers
   • Calculate bond yield
   • Contrast bonds, stocks, mutual funds, and assets
   • Explain the tradeoffs between return and risk
17.3 How to Accumulate Personal Wealth
   • Explain the random walk theory
   • Calculate simple and compound interest
   • Evaluate how capital markets transform financial capital

Chapter 18: Public Economy
18.1 Voter Participation and Costs of Elections
   • Explain the significance of rational ignorance
   • Evaluate the impact of election expenses
18.2 Special Interest Politics
   • Explain how special interest groups and lobbyists can influence campaigns and elections
   • Describe pork barrel spending and logrolling
18.3 Flaws in the Democratic System of Government
   • Assess the median voter theory
   • Explain the voting cycle
   • Analyze the interrelationship between markets and government

Chapter 19: International Trade
19.1 Absolute and Comparative Advantage
   • Identify at least two advantages of intra-industry trading
   • Explain gains from trade
   • Understand production possibilities and comparative advantage
   • Identify situations of mutually beneficial trade
19.2 The Benefits of Reducing Barriers to International Trade
   • Explain the relationship between economies of scale and intra-industry trade
   • Identify at least two benefits of reducing barriers to international trade

Chapter 20: Globalization and Protectionism
20.1 Protectionism: An Indirect Subsidy from Consumers to Producers
   • Explain protectionism and its three main forms
   • Analyze protectionism through concepts of demand and supply, noting its effects on equilibrium
   • Calculate the effects of trade barriers
20.2 International Trade and Its Effects on Jobs, Wages, and Working Conditions
   ● Discuss how international trade influences the job market
   ● Explain and analyze various arguments that are in support of restricting imports
20.3 Arguments in Support of Restricting Imports
   ● Explain dumping and race to the bottom
   ● Evaluate the significance of countries' perceptions on the benefits of growing trade
20.4 How Trade Policy Is Enacted: Globally, Regionally, and Nationally
   ● Discuss the significance and provide examples of regional trading agreements
   ● Explain the origin and role of the World Trade Organization (WTO) and General Agreement on Tariffs and Trade (GATT)

Chapter 21: Inequality, Poverty, and Discrimination
21.1. Earnings and Discrimination
   ● Explain economic inequality and how the poverty line is determined
   ● Identify potential issues in government programs that seek to reduce poverty
   ● Explain a Lorenz curve
21.2 Income Inequality and Poverty
   ● Explain the arguments for and against government intervention in a market economy
   ● Explain the impact of discrimination in a competitive market
   ● Identify U.S. public policies designed to reduce discrimination

Chapter 22: Externalities and Public Goods
22.1 Externalities
   ● Define externalities
   ● Discuss examples of positive externalities
   ● Discuss examples of negative externalities
22.2 Public Goods
   ● Identify several sources of public goods
   ● Explain the free rider problem
   ● Identify a public good
